VIDA'S 5 TIPS

ON

HOW TO LIVE AN

Inspired Life

TIP #1

THE UNIVERSE OPERATES BASED ON CERTAIN SCINETIFICALLY PROVEN LAWS AND WE ARE ALL GOVERNED BY THE SAME LAWS AND THE PRINCIPLES. THE DISOBEYANCE OF SUCH LAWS ARE DETRIMENTAL TO ANYONE'S SUCCESS AND PROSPERITY.

This is the most fundamental tip that anyone could ever give you and yet more than 98% of the people in the world are unaware of it or have completely ignored it. So please continue to read as the understanding and the proper application of the universal laws could change your life forever.

TIP #2

WE BECOME WHAT WE THINK OF ALL DAY LONG. WE MANIFEST WHAT WE THINK ABOUT MOST OF THE TIME.

This is the most important thing that you could ever learn and yet so ignored, and then we wonder why we are not healthy, why we're not happy, and why we're not making enough money, or why we don't have the right partner. It's so powerful and I really want you to focus on it.

LET ME REPEAT: WE BECOME WHAT WE THINK OF ALL DAY LONG.

So, for the next few days I want you to really pay attention to the things that keep your mind preoccupied most of the day, as to whether they are positive thoughts or negative, and obviously if negative, STOP thinking about and focusing on the negative, as by doing so you'd only get more of the same, and just as true is the truth that the more you focus on the positive thoughts the more of the good things you'd get.

Again, so true and yet so ignored.

TIP #3

USE YOUR POWER OF IMAGINATION AND FANTACIES TO TAKE YOU FROM WHERE YOU ARE TO WHERE YOU WANT TO BE IN LIFE INSTANTLY.

Yes, you read it right; we've been told since we started school to stop daydreaming and to pay attention. Our imagination has been locked up since childhood because as grownups we don't dare dreaming anymore and where has that gotten us so far? Are you happy with every aspect of your life? Well, you see where I'm going with this question. But you have to be honest with yourself. So become a kid again, take your imagination to the wonderland that you used to go when you were a kid, and let your powerful imagination wander around the things you'd love to have. It's like going to a candy store as a kid. Only this time you're going to find a few things/goals that get you so excited if you really had them and that you'd really love to have. Now before you come back from your imagination trip remember that you can only choose one of those things or goals for now.

TIP #4

BECOME EMOTIONAL WITH YOUR IMAGINATION.

This is the key to locking your imagination. It is completely different from wishing to have something and then thinking well it's too late, or I could never have it or what would other people think about it...Remember, in the tip #1 I said that you become what you think about most of the day. Whatever you emphasize on and get emotional about, bad or good, your dominant thoughts become things because you become emotional about them and if you do it most of the time that's what you'd get, so you may as well think and get emotional about something that you really want to have rather than constantly thinking and getting emotional about something that you really don't want to have. And remember, it doesn't matter if you imagined a better health, or your soulmate or more money or a house; the law is the law and it works the same.

TIP #5

MAKE YOURSELF A GOAL CARD

Now that you have decided on exactly what you want, I want you to make yourself a goal card that you could carry with you and read it no matter where you are, even in the bathroom! Yes, even in the bathroom and on your shower door and on your bathroom mirror. So you could actually make a few cards or posted notes that you could stick everywhere to remind you of your goal. REMENBER, as I asked you in tip #3, when you read your card or your note you have to become emotional about your goal as reading it just for the sake of having done a task is merely fooling yourself. Read it aloud to yourself (when no one is around to make fun of you as most probably they would since none of this material is offered at any school or university and the majority of people are not aware of how the universe works and yes, we are all governed by the universal laws.

AND TO LOCK IT IN:

TIP #6

MAKE SURE THAT YOUR GOAL CARD INCLUDES AN ACCOMPLISHMENT DATE.

AND TO LOCK IT IN:

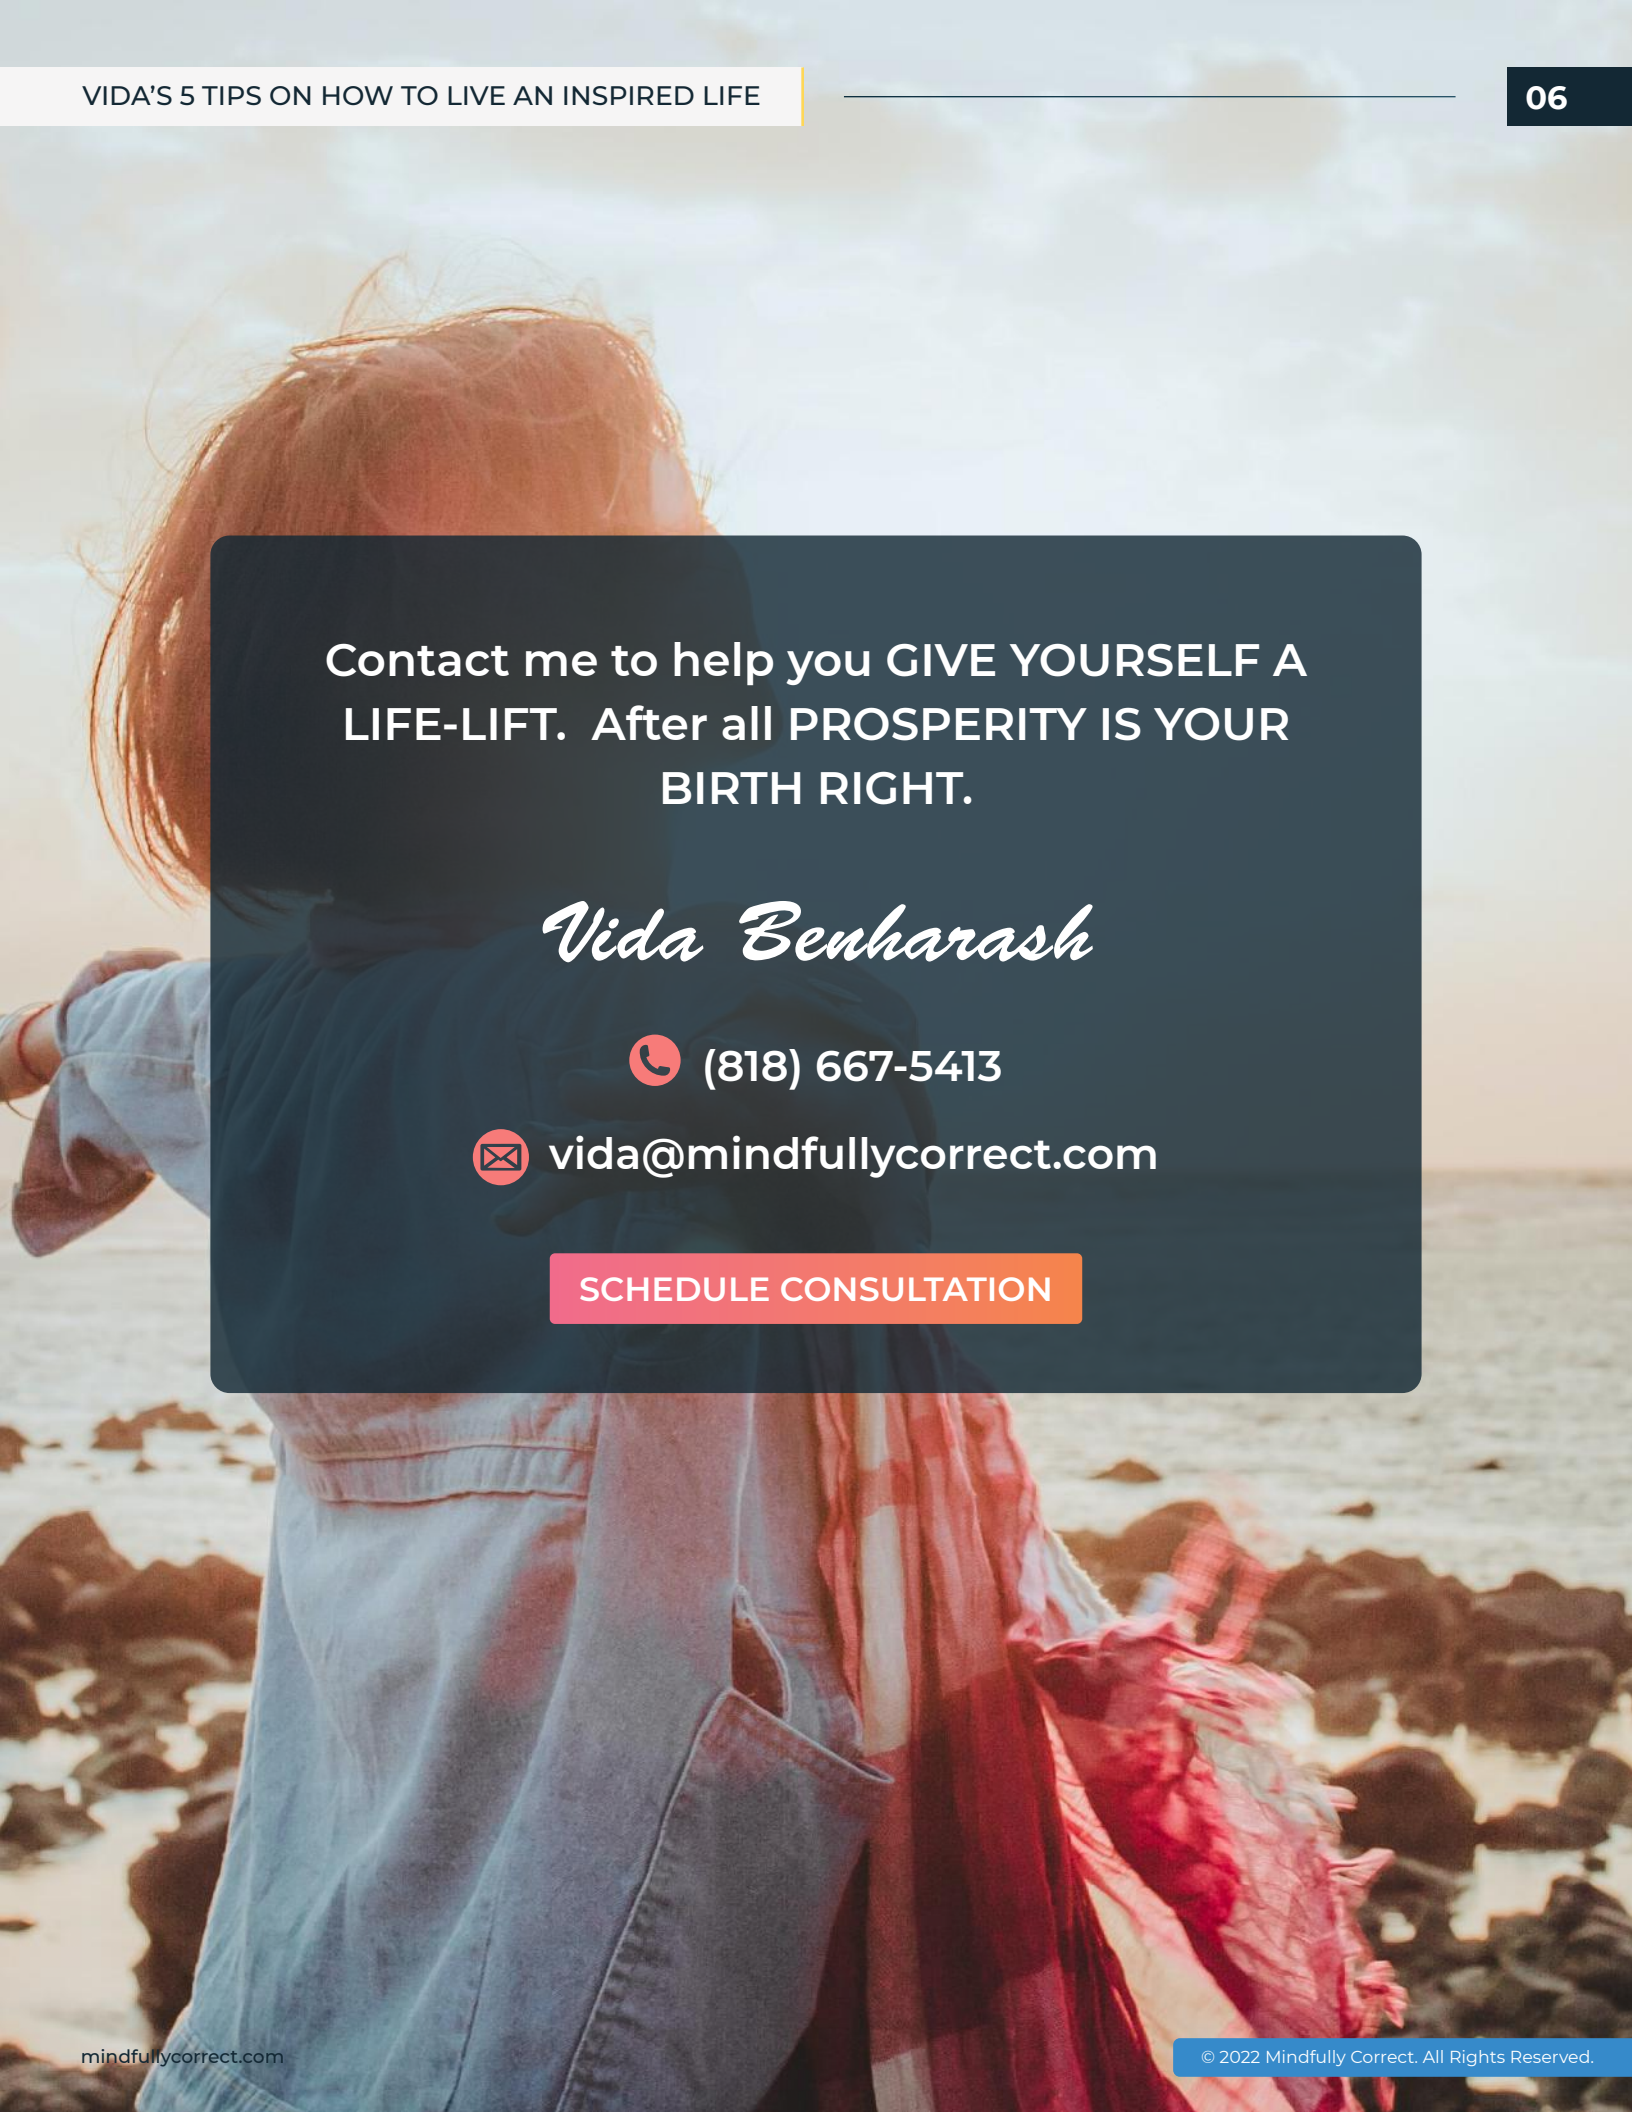

What do YOU really want in life? What do YOU really really want?

Where would YOU be in life if it was the way YOU wanted it to be?

Make a decision and commit to change it all. Sadly for so many, most of the New Year's resolutions become forgotten since we don't know HOW to change them even if we truly want to do so.
